PROFILE

Independent Front-End Developer with a strong focus on delivering immersive and engaging user experiences through efficient website development. Adept at blending the art of design with programming skills to create visually appealing and functional websites.

INTERNSHIP

Front-end and cross-platform track

Information Technology Institute (ITI)

📅 03/2023 - 06/2023 📍 Cairo University

Worked on real-world projects, collaborating with a team of developers. Enhanced my technical skills, problem-solving abilities, and applied theoretical knowledge to practical scenarios.

- Developed expertise in front-end web development with **HTML**, **CSS**, **JavaScript** and **TypeScript**.
- Developed dynamic and responsive web applications using **Angular** and **React** frameworks, while proficiently implementing state management with **Redux**.
- Acquired **Node.js** basics for server-side programming and explored **UI/UX** principles and obtained a foundation in **Figma** design tool.
- Worked on cross-platform mobile app development using **React Native** and **Flutter** frameworks.

React Development Cross-Skilling

FWD & Udacity

📅 09/2022 - 10/2022

Immersed myself in React.js. Focused on learning and applying React.js principles and best practices.

- Developed a strong understanding of **React.js** fundamentals and component-based architecture.
- Built **reusable** and modular UI components for improved code efficiency.
- Implemented **React Router** for efficient navigation within web applications.
- Explored state management using React's built-in state and **Redux**.

EXPERIENCE

Junior Software Developer

Upwork

📅 08/2021 - Present

🌐 <https://www.upwork.com/freelancers/yomna>

- Collaborated with diverse clients to develop mobile applications using **Flutter** framework, creating seamless and user-friendly experiences.
- Leveraged **Firebase** to implement real-time database functionalities, user authentication, and cloud storage in mobile app projects.
- Successfully integrated various **APIs** to enhance app functionality and enable data synchronization with external services.
- Worked on web projects utilizing **React.js** and **Next.js**, implementing responsive and interactive user interfaces.

SKILLS

HTML	CSS	JavaScript	
ECMAScript		ES6	Typescript
OOP	React	Next	Sass/SCSS
Bootstrap	Tailwind	MUI	
Chakra UI	Redux toolkit	Flutter	
Dart	Firebase	API integration	
REST API	Git	GitHub	Agile

PROJECTS

IPark - Graduation Project

📅 06/2023 📍 ITI

- Technologies used: React, Material UI, Bootstrap, Redux toolkit, Firebase, Google cloud, Stripe, Localization

Youtube Clone

📅 01/2023

- Technologies used: React, Material UI, ReactHooks, API Integration
- [Website](#) - [GitHub](#)

Nanny Finder

📅 2022 - 2023 📍 Upwork

- Technologies used: Flutter, Flutter web, Firebase (Auth, Firestore, Storage, Dynamic Links, Hosting, FCM)
- [Google Play](#) - [App Store](#)

EDUCATION

Bachelor of Commerce

Cairo University

📅 2015 - 2019 📍 Giza, Egypt

LANGUAGES

Arabic	Native
English	Advanced
